

LinkedIn: <https://www.linkedin.com/in/eswaran-s-3493b029a/>

Website: <https://eswarabi.github.io/Eswaran-S/>

RESEARCH INTERESTS:

- Remote sensing and GIS
- Optical Drone Data Processing
- Urban Growth and Urban Sprawl Modelling
- SAR Data Processing
- Numerical Simulation

TECHNICAL SKILLS

- Geospatial Tool : **QGIS, ArcGIS, ArcGIS Pro.**
- Remote Sensing Tool: **ENVI, SNAP, Eradas imaging.**
- Drone Data processing Tool: **Agisoft Metashape, Global Mapper.**
- Coding Environment : **GEE, HTML, R, Python.**

EDUCATION QULIFICATION

Year	Academic Credentials	Awarded By	Grade
2025-2027	M.Tech Remote Sensing &GIS (Master of Technology)	<i>Bharathidasan University</i>	Pursuing
	Dissertation:		
2021-2025	B.E Geoinformatics Engineering (Bachelor of Engineering)	<i>Anna University</i>	First Class with CGPA: 7.7
	Dissertation: “ Remote Sensing and GIS based prediction of potential Limestone Mines for the Cement Industry in Ariyalur District”		

WORK EXPERIENCE

S.No	Designation	Organisation	Period
1	GIS Analyst	Fligen Systems Pvt Ltd, Pune	March 2025-August 2025

EXECUTIVE SUMMARY

My research interests focus on the application of Remote Sensing and GIS for analysing environmental changes and spatial patterns. I am particularly interested in using satellite data, geospatial analysis, and machine learning techniques to study land use and land cover change, urban growth, and environmental impacts. My academic background in Geoinformatics and Remote Sensing & GIS has provided me with knowledge and experience in satellite image processing, spatial analysis, GIS, and UAV-based mapping. My main research interests include urban sprawl modelling, landscape analysis, environmental impact assessment and industrial impacts, and multi-sensor remote sensing. I am interested in integrating multispectral, thermal, microwave/SAR, and UAV data to understand spatial and at different scales. My aim is to apply geospatial technologies to support sustainable environmental management, urban planning, and informed decision-making.

PUBLICATION

1. **Eswaran, S.** SAR-Based Rapid Detection and GNOME Modelling of a Suspected Naphtha Oil Spill in the Northern Persian Gulf. *National Academy Science Letters*. (In Review)
2. **Nilavan, T. M., & Eswaran, S.** Mangrove vulnerability assessment of Pichavaram ecosystem using remote sensing and GIS based multi criteria analysis. *Environmental Monitoring and Assessment*(In Review)

INTERNSHIP EXPERIENCE

S.No	Designation	Organisation	Period
1	GIS Analyst intern	Infomaps, Chennai	September 2023
2	Data Capturing intern	Dokimi LLP, Salem	September 2024- November2024
3	Project Intern	M S Swaminathan Research Foundation, Chennai	May 2025-June2025

CERTIFICATION COURSES / LICENSES/ ACADEMIC PART TIME COURSES

S.No	Course Description	Awarded By	Certificate No.
1	Remote Pilot Certificate	DGCA	PC0824000094H
2	PGDES- Postgraduate Diploma in Environmental Studies	IGNOU	Pursuing

PARTICIPATION

- IIT Bombay FOSSEE AAI Mapathon (Edition 5) – Winner (Mapwin25T9M)
- IIT Bombay FOSSEE Mapathon (Edition 3) - Notable Participants
